# WORLD'S BEST STUFF

FOR LEAKS, DRIPS & SPILLS.®

Contact your local distributor for top-quality PIG® Absorbents.

# New Pig is the world leader in leak and spill products.

New Pig Corporation is an internationally respected manufacturer of top-quality products for managing industrial liquids and cleaning up leaks and spills. In 1985, New Pig revolutionised industrial cleanup and launched the absorbent industry with the invention of the PIG Original Absorbent Sock.

## Why the Pig name?

The area of the warehouse where we first tested our prototypes was an oily mess. Our absorbent socks lying in pools of dirty oil were called "pigs" because they looked like they were wallowing in it. When it was time to trademark our new absorbent, we weren't sure that "pig" would be the best name for it. But our customers loved the name, so we kept it. Co-founder Ben Stapelfeld chose "Pig Corporation" as the company name but discovered that it had already been registered by a Pennsylvania farmer. Undaunted, Ben simply added the word "new" at the beginning to create "New Pig Corporation."

## Ongoing Innovation

Today, we remain committed to innovation and the constant search for new solutions to our customers' problems. Our product engineers design, develop and thoroughly test every new solution to make sure it will work flawlessly in your facility. Thanks to their hard work and dedication, our products have won numerous awards for their superior innovation and performance.

## Technical Expertise

New Pig's knowledge and technical expertise go beyond the products we sell. We understand best management practices, environmental concerns and the challenges that industrial facilities face every day. More than just a manufacturer of goods, we're here to help keep India's workplaces clean and safe.

## Established Credibility

As the founders of the contained absorbent industry, nobody has been in the business longer. For nearly 27 years, New Pig has been regarded as the world leader in leak and spill management. That's why PIG products are valued by over 200,000 customers in more than 70 countries.

CERT-0045819

## ISO 9001 and ISO 14001 Certifications mean you can expect only the best.

Our management systems are ISO 9001 and ISO 14001 certified, ensuring consistent quality in the products we make and environmental responsibility in the way that we make them.

## Absorbents

PIG Absorbents really perform — that's why they're #1 worldwide!

## Spill Control

Take control of spills with award-winning PIG products!

## Maintenance

Save space, reduce waste and make your facility shine with these proven timesavers.

## Material Handling

Easier ways to store, dispense, handle and transport liquids.

## Containment

Store dangerous liquids on quality PIG® Pallets and Decks.

Containment

Product development is ongoing at our headquarters in Tipton, Pennsylvania, USA.

# These cleanup methods look bad and don't work.

## INFERIOR WAY

### RAGS

- Poor absorbency and inefficient on large leaks and spills
- Absorbed liquids leak out and create a bigger mess
- Rags can't prevent leaking liquids from spreading

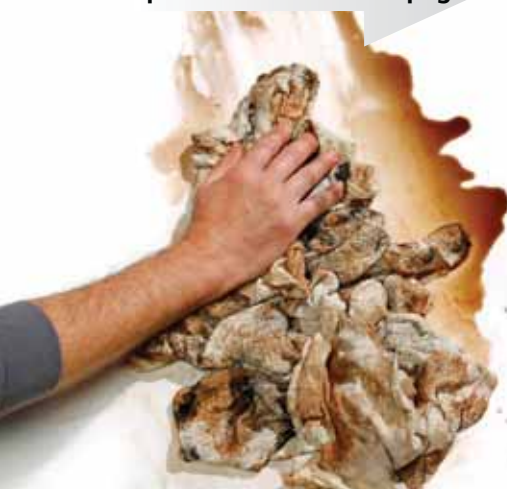

### CLAY

- Doesn't absorb anything at all and just coats itself in oil
- Sticks to workers' feet and gets tracked all around your plant
- Gets inside machinery and equipment causing costly damage
- Clay is heavy to lift and requires sweeping and shovelling to clean

### MOPPING

- Mop heads are not absorbent enough for large leaks and spills
- Liquids get pushed around the floor or they're wrung into a bucket and soaked up again
- Mopping leaves floors wet and slippery

There's a better way — see PIG products on the next page!

PIG products are the professional way — see the next page!

See PIG products on the next page for a better solution!

# PIG products help create a professional plant.

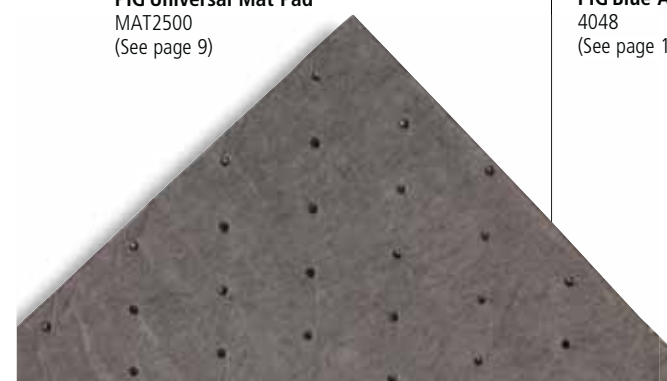

## PROFESSIONAL WAY

### OVERSPRAY

- PIG Mat Pads and Rolls are the easy solution for controlling drips and overspray.
- Just lay them down, let them do their work, and pick them back up
  - Absorbs overspray to keep floors dry and safe
  - Much easier to clean up than rags, clay and mopping
  - Choose Universal for oils, coolants, solvents and water; Oil-Only version for oil but not water; HazMat for acids, caustics or unknown liquids

**PIG Universal Mat Pad**  
MAT2500  
(See page 9)

### LEAKS

- PIG Socks are the professional solution for absorbing machine leaks.
- Mouldable design is ideal for lining machine bases
  - Leaks are captured and contained before they can spread
  - Much easier to clean up than rags, clay and mopping
  - Choose Universal for oils, coolants, solvents and water; Oil-Only version for oil but not water; HazMat for acids, caustics or unknown liquids

**PIG Blue Absorbent Socks**  
4048  
(See page 17)

### SPILLS

- PIG Pillows, Mats and Socks quickly contain and soak up spills.
- Surround the spill with PIG Socks to prevent liquids from spreading
  - Place PIG Pillows on large spills to pull in high volumes of liquid
  - Use PIG Mat for cleaning up smaller spills and to dry floors during final cleanup
  - Choose Universal for oils, coolants, solvents and water; Oil-Only version for oil but not water; HazMat for acids, caustics or unknown liquids

**PIG HazMat Pillow**  
PIL306  
(See page 37)

# Choose your absorbents based on the

## Universal

Absorbs oils, coolants, solvents and water

### PIG Universal Absorbents

- Use all around your facility for general maintenance and everyday cleanups
- Even soaks up petroleum, antifreeze and motor oil in vehicle repair areas
- See opposite page for types of liquids absorbed

## Oil-Only

Absorbs oil, but not water

### PIG Oil-Only Absorbents

- Use outdoors to clean up spilled oil while repelling rainwater
- Use indoors where floors are frequently hosed down
- Even floats to clean up waterborne spills
- See opposite page for types of liquids absorbed

## HAZMAT

Absorbs most acids and bases

### PIG HazMat Absorbents

- Ideal for labs or industrial applications where corrosive liquids are stored or processed
- Use as a precaution when you're not sure what liquid has spilled
- See opposite page for types of liquids absorbed

# types of liquids you're working with.

## PIG Universal Absorbents

Ideal for soaking up oils, coolants, solvents and water. Some common examples of these liquids include:

- Hydraulic oil
- Vegetable oil
- Petroleum
- Kerosene
- Antifreeze
- Propylene glycol
- Acetone
- Toluene
- Xylene
- MEK (methyl ethyl ketone)

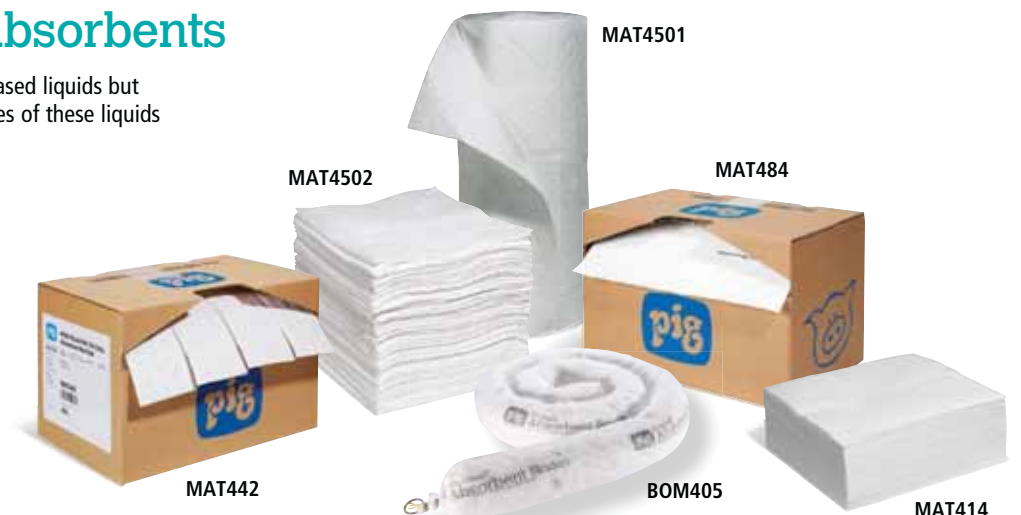

See pages 8–19, 22–25.

## PIG Oil-Only Absorbents

Ideal for soaking up oils and oil-based liquids but not water. Some common examples of these liquids include:

- Motor oil
- Hydraulic oil
- Petroleum
- Diesel fuel
- Kerosene

See pages 26–31, 34–37.

## PIG HazMat Absorbents

Ideal for soaking up acids, caustics and unknown liquids. Some common examples of these liquids include:

- 98% Sulfuric acid
- 30% Sodium hydroxide
- Hydrochloric acid
- Potassium hydroxide
- Phosphoric acid
- Hydrofluoric acid
- Hydrogen peroxide
- Ammonium hydroxide

See pages 38–45.

Control machine overspray and keep work areas clean and professional with PIG Mat.

- Best-selling PIG Mat is trusted by top professional plants worldwide
- Completely absorbs oils, coolants, solvents and water
- Traps absorbed liquid so it won't leak out when you pick up the mat
- Use pads for smaller areas; use rolls to cover floors beside machinery
- Dispenser Box (MAT251 and MAT2500) keeps mat dry and ready to use

The Technology Inside  
Universal Mat

Unique construction bonds a high-loft centre between two layers of lint-free fabric.

Primary use:  
Heavy-duty applications

Primary benefit:  
Lasts longer to reduce replacement costs

UNPROFESSIONAL WAY  
Rags can't stop liquids from spreading.

PROFESSIONAL WAY

PIG® Mat absorbs and controls liquid to help you maintain a professional appearance!

PIG® Universal Mats					
Item#	Weight		Quantity/Unit	Size	Absorbs Up To/Package
PIG® Universal Mat Pads					
MAT2502	Lightweight		200 pads/bag	38cm W x 48cm L	Absorbs up to 106.4L/bag
PIG® Universal Mat Roll					
MAT2501	Heavyweight		1 roll/bag	76cm W x 45.7m L	Absorbs up to 188.5L/bag
PIG® Universal Mat in a Dispenser Box					
MAT251	Heavyweight	Universal Handy Pads	100 pads/dispenser	25cm W x 33cm L	Abs. up to 37.8L/dispenser
MAT2500	Heavyweight		100 pads/box	38cm W x 48cm L	Absorbs up to 99.5L/box

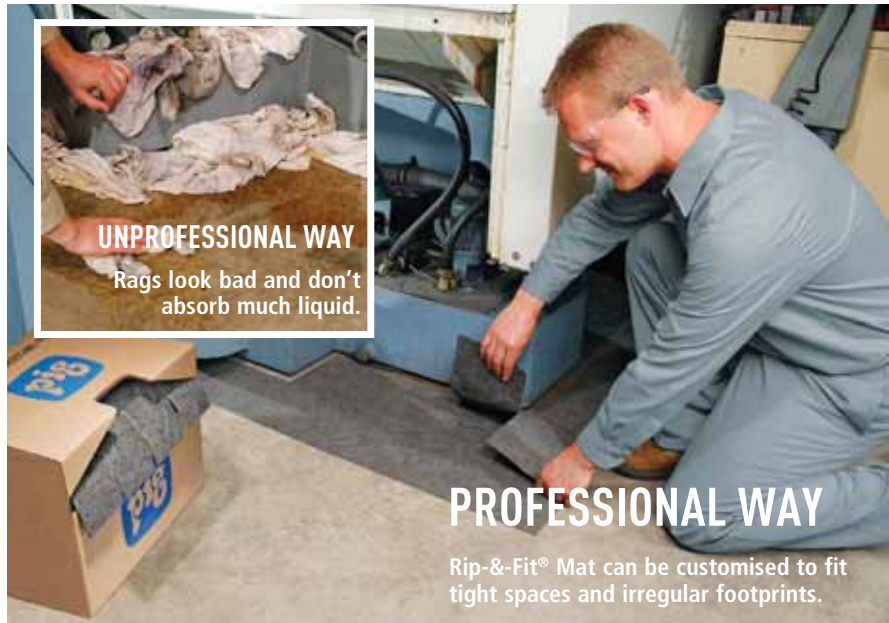

4 in 1 Mat works four different ways to control liquid messes all around your plant.

- Tear off a pad to soak up spills easier than rags, clay or mops
- Roll out a longer length to absorb messy overspray
- Fold it in half to line machine bases to catch oily leaks
- Use it to wipe up drips or for other cleaning tasks
- Absorbs oils, coolants, solvents and water

PIG® 4 in 1® Universal Absorbent Mat in Dispenser Box					
<b>MAT284</b>	1 roll/dispenser box	41cm W x 24.4m L	Absorbs up to 34.8L/box		Patent 5,888,604 and 5,597,418

Tear Rip-&-Fit Mat to fit any space to control liquids and create a professional appearance.

- Multiple perforations let you create a custom size for any application
- Completely absorbs drips and overspray of oils, coolants, solvents and water
- Traps absorbed liquid so it won't leak out when you pick up the mat

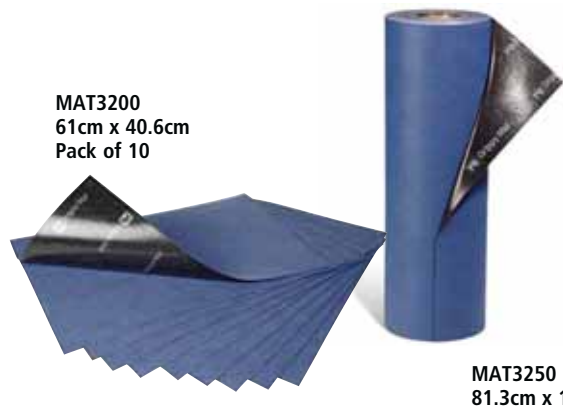

Rip-&-Fit® Universal Mat Roll in Dispenser Box					
<b>MAT242</b>	Heavyweight	1 roll/dispenser box	38cm W x 18.3m L	Absorbs up to 29.5L/box	

Introducing **PIG Grippy Mat.**  
The revolutionary absorbent mat that *stays put no matter what*®.

- Specially formulated, full-coverage adhesive backing holds tight but leaves no residue
- PIG Grippy Mat outperforms inferior solutions like tape, weights and trays to keep absorbent mats in place
- Peels up easily for quick changeouts; reduces cleanup time for a more productive facility
- Eight layers of fine-fibre polypropylene absorb leaks, drips and overspray of oils, coolants, solvents and water
- No curling or bunching; Grippy Mat lies flat to reduce trip hazards

**NFSI** Grippy® Mat is tested and certified by the National Floor Safety Institute (NFSI) as a high-traction surface, which can reduce slip and fall claims by as much as 90% when used as part of a Floor Safety Program.

PIG® Grippy® Absorbent Mat					
<b>MAT3200</b>	Mediumweight	10 pads/bag	41cm W x 61cm L	Absorbs up to 3.8L/bag	
<b>MAT3250</b>	Mediumweight	1 roll	81cm W x 15.2m L	Absorbs up to 19.9L/roll	
<b>MAT32100</b>	Mediumweight	1 roll	81cm W x 30.5m L	Absorbs up to 39.7L/roll	

Please note: All adhesives have some potential to lift finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floor surface. PIG Grippy® Absorbent Mat® and PIG Grippy® Traffic Mat® are formulated to work with most common industrial floor surfaces (and may not be suitable for home/residential use and wood flooring), but if you have questions about the suitability of Grippy® Absorbent Mat® or Grippy® Traffic Mat® for your application, test a 15cm x 15cm piece in a noncritical area before use. PIG Grippy® Absorbent Mat® and PIG Grippy® Traffic Mat® are designed so that the bond to the floor strengthens for a period of time after installation. This ensures the mat will stay in place and help prevent trips and falls better than rental mats that curl, bunch, and slide out of position. We recommend changing the mat no later than 12 weeks after installation to ensure easy removal from floor finishes and tiles.

### Grippy Traffic Mat Rug won't budge — even under forklift traffic!

- Stays put under forklift traffic and equipment driveovers
- Grippy® backing keeps rug in place without bunching or sliding
- Catches leaks and drips to reduce slip and trip hazards

**PIG® Grippy® Traffic Mat® Rug**

<b>MAT3223</b>	Heavyweight	1 roll	91cm W x 30.5m L	Abs. up to 43.5L/roll	
----------------	-------------	--------	------------------	-----------------------	--

# Here's what the professionals who use PIG products are saying!

*"I have been using PIG Products for 10 years now and have not found any other products that can outperform the PIG Absorbent Pads and Mats."*

– Chemical Safety Lab Supervisor

*"PIG Mat is great stuff. It will clean up anything you spill and it's 10 times easier to use than clay or rags. I would say it works better than anything else I have ever used."*

– Automotive Technician

*"...we rely on your product to help us clean up close to 20–25 moderate to large size spills a year, and their performance gives us a high degree of confidence."*

– Safety Department Manager

*"It's a great product that does what it is supposed to do without making more of a mess for you to clean up."*

– Automotive Shop Manager

*PIG Mat is the professional way to clean up oily messes — better than rags, clay and mopping!*

Keeping India's Workplaces Clean and Safe

**Universal**  
Absorbs oils, coolants, solvents and water

## UNPROFESSIONAL WAY

Oily rags piled on drum tops just make the mess worse.

## PROFESSIONAL WAY

PIG Barrel Top Mat hides drips and fits perfectly for a clean, professional appearance.

Precut holes for pump and fill gauge.

**PIG Barrel Top Mat fits right on your drum top to absorb drips for a professional appearance.**

- Fits perfectly on 210-litre drums
- Precut holes for 3/4" and 2" bungs accept drum accessories
- Completely absorbs oils, coolants, solvents and water
- Absorbed liquid won't leak out when you pick up the mat
- PIG Barrel Top Mat is packaged in a wall-mount dispenser so you can hang it anywhere

### PIG® Universal 210L Barrel Top Mat

<b>MAT208</b>	Heavyweight	For steel drums	25/box	56cm Dia.	Absorbs up to 26L/box
---------------	-------------	-----------------	--------	-----------	-----------------------

## Walk on PIG Elephant Mat without wearing it out while you control liquids in aisles and walkways.

- Extra stitching on top layer withstands heavy foot traffic
- Completely absorbs oils, coolants, solvents and water
- Keeps aisles and walkways clean to maintain a safe walking surface
- Absorbed liquids won't leak out when you pick up mat

Durable PIG Elephant Mat resists even the heaviest foot traffic.

PIG® Elephant Mat Rolls			
<b>MAT234</b>	1 roll/bag	84cm W x 45.7m L	Absorbs up to 87L/box

**UNPROFESSIONAL WAY**  
Mopping up oily messes leaves floors wet and slippery.

Zigzag stitching provides extra durability.

## PROFESSIONAL WAY

PIG Elephant Mat provides excellent traction while absorbing drips and overspray.

## UNPROFESSIONAL WAY

Clay sticks to forklift wheels and gets tracked around your plant.

## PROFESSIONAL WAY

Traffic Mat Rug withstands heavy forklift traffic and it absorbs liquids to keep your floors dry!

## Take control of liquids in forklift areas with our super-durable PIG Traffic Mat Rug.

- Heat fused and needle punched for ultimate durability; can be walked or driven on repeatedly
- Completely absorbs oils, coolants, solvents and water
- Optional poly backing provides better traction and more liquid control

PIG® Traffic Mat® Rug			
<b>MAT218</b>	1 roll/bag	91cm W x 91.4m L	Absorbs up to 147.6L/bag
PIG® Traffic Mat® Poly-Back Rug			
<b>MAT223</b>	1 roll/bag	91cm W x 30.5m L	Absorbs up to 49.2L/bag

MAT223

MAT218

## Inferior cleanup methods are not effective.

**INFERIOR WAY**

### Rags are not absorbent enough to control leaks.

- Absorbed liquids leak out and create a bigger mess
- Rags leave gaps around machine bases, allowing leaks to reach the floor
- Oily rags look dirty and unprofessional

Use PIG Socks instead — see opposite page!

**INFERIOR WAY**

### Clay doesn't absorb and can't contain leaks.

- Sticks to workers' feet and gets tracked all around your plant
- Gets inside machinery and equipment causing costly damage
- Clay is heavy to lift and requires sweeping and shovelling to clean up

Use PIG Socks instead — see opposite page!

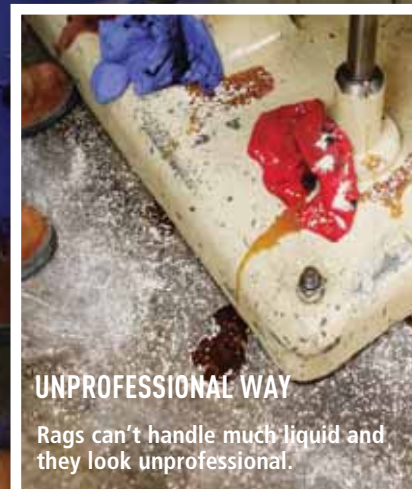

**INFERIOR WAY**

### Mopping spreads the mess around instead of absorbing it.

- Mop heads are not absorbent enough to handle large leaks
- Liquids get pushed around or they're wrung into a bucket and soaked up again
- Mopping leaves floors wet and slippery

Use PIG Socks instead — see opposite page!

### UNPROFESSIONAL WAY

Rags can't handle much liquid and they look unprofessional.

### PROFESSIONAL WAY

PIG Socks are highly absorbent, easy to handle and create a neat appearance.

## Wrap PIG Socks around machine bases to absorb and control leaks before they spread.

- Mouldable socks hug corners and machine bases to stop liquids from spreading
- Contained absorbent makes cleanup quick and easy
- Use PIG Original Socks for everyday leaks; PIG Blue Socks for diking and damming; PIG Super Socks for maximum absorbency

PIG® Original Absorbent Socks				
<b>404</b>	40/box	8cm Dia. x 107cm L	Absorbs up to 75.7L/box	
PIG® Blue Absorbent Socks				
<b>4048</b>	40/box	8cm Dia. x 122cm L	Absorbs up to 113.6L/box	
PIG® Super Absorbent Socks				
<b>PIG210</b>	24/box	8.25cm Dia. x 107cm L	Absorbs up to 90.9L/box	

**UNPROFESSIONAL WAY**  
Clay just makes the mess bigger, and coffee cans tip over if you kick them.

**PROFESSIONAL WAY**  
PIG Pans catch drips and trap them inside so they won't spill if you bump or kick them.

Sturdy PIG Pans absorb and contain drips in dispensing areas.

- Wide-based pans catch drips from dispensing drums
- Sturdier than cans or other unstable containers
- Highly absorbent filler traps liquids so it won't spill if you accidentally bump or kick it
- Each PIG Pan absorbs 2.8 litres of oils, coolants, solvents and water
- Low-profile pan requires only 8 cm clearance to fit tight spaces

**How PIG Pans work:**

PIG Pans are packed with a highly absorbent, recycled loose filler that holds up to 2.8L of liquid!

PIG® Pans				
2410PP-01	12 pans/box	27cm W x 27cm L x 8cm H	Absorbs 34L/box	

PIG Heavy Fluids Mat picks up the thick liquids that rags can't handle.

- Air pockets absorb the thickest liquid with only slight pressure
- Traps up to 3.64 litres of liquids like paint, glue, resins, liquid chocolate, syrup and varnish
- Can also be used to filter metal chips and other debris from liquids

PIG® Heavy Fluids Mat				
MAT209	50/bag	46cm W x 56cm L	Absorbs up to 181.7L/bag	

Place high-capacity PIG Pillows underneath persistent drips or onto deep spills for fast cleanup.

- Tough polypropylene cover resists tears and ruptures
- Pillows have large surface area, high capacity and fast-wicking filler to quickly soak up liquids
- Completely absorbs oils, coolants, solvents and water
- Traps absorbed liquid so it won't leak out when you pick up pillows
- Ideal for steady leaks or spill response

PIG® Pillows				
PIL204	Small	40 pillows/box	25cm W x 25cm L x 5cm H	Absorbs 75.7L/box
PIL201	Large	16 pillows/box	43cm W x 53cm L x 5cm H	Absorbs 121.1L/bag

Lite-Dri Absorbent pulls in three times more liquid than clay.

- 100% recycled cellulose begins to absorb the moment it touches oils, coolants, solvents or water
- Non-abrasive material won't scratch floors or damage expensive machinery
- Lightweight material is three times more absorbent than clay

PIG® Lite-Dri® Universal Absorbent		
PLP201	10kg bag	Absorbs 30.3L/bag

PIG Dri Absorbent spreads like clay but makes no harmful dust.

- Silica-free absorbent can be used without the health hazards associated with clay
- Cellulose-based kaolin granules are easy to spread like clay, but without the health risks to your workers
- Absorbs liquids right to the core, unlike clay pellets which simply become coated
- Twice as absorbent as clay

PIG® Dri Loose Absorbent		
PLP213-1	1 (18)kg bag	Absorbs 18.9L/bag

DID YOU KNOW?

85%

OF SPILLS HAPPEN IN:

1. Drum storage areas
2. Loading docks
3. Anywhere forklifts operate

## Follow these 7 steps for effective, professional spill response.

### 1 Assess the risk

Safety is your top priority. So when a spill happens, first assess the risk as it relates to human health, the environment and your physical property.

Identify the spilled material either from the container's label or from the Material Safety Data Sheet (MSDS).

### 2 Select PPE

Using the right Personal Protective Equipment (PPE) is critical to your safety and should cover every part of your body: suits, face protection, gloves and boots.

The following information will help you choose the appropriate PPE: MSDS, chemical manufacturer's literature and PPE manufacturer's instructions.

### 3 Confine the spill

Keeping the spill from reaching a water source, minimising the spill area and protecting drains are the top priorities.

Use PIG Socks and Booms to surround spills. Always use the most appropriate absorbent for the liquid involved to ensure effective response.

### 4 Stop the source

Once you have the spill confined, locate and stop the source by one of the following three methods: turning the container

upright, closing the valve or plugging the leak in the damaged container.

### 5 Evaluate & clean up

Determine the best course of action for cleanup. Use PIG Pillows and PIG Mat Pads to

absorb smaller spills or to clean up the rest of a larger spill. You can also pump out large quantities of contained liquid. Once the absorbents are fully saturated, they should be disposed of properly.

### 6 Decontaminate

After the cleanup operation is finished, it is important to decontaminate your site, your equipment and the personnel involved.

### 7 Complete any reports

As soon as possible after the spill, complete all notifications and reporting required for spill incidents.

## PIG Spill Kits are packed with high-quality products for fast response.

When spills happen, there's no time to search for the proper supplies to clean them up. Every second that's wasted during your response allows the spill to spread across your plant floor, where it can enter drains and harm the environment.

Professional plants keep PIG Spill Kits on hand so they are prepared to act quickly when a spill occurs. PIG Spill Kits contain the right combination of absorbents and are packed in the order that you'll need them.

For step-by-step instructions on effective spill response, please refer to our helpful guide on the opposite page.

KIT202-999  
PIG 360-Litre  
Spill Kit shown  
on page 25.

## UNPROFESSIONAL WAY

Clay is hard to clean up and doesn't really absorb any liquid.

## PROFESSIONAL WAY

PIG Absorbents are highly absorbent and easy to use. Just put them down, let them work and pick them up!

Keeping India's Workplaces Clean and Safe

## This highly visible PIG Spill Kit can go anywhere you can!

- Packed with PIG Absorbents for controlling spills up to 34.1 litres
- Hand strap allows you to carry kit or to hang it on a wall
- Compact size is easy to store and transport
- Bright yellow bag stands out so you can find it when you need it

Water-resistant bag with hook-and-loop closure keeps contents clean and dry.

### PIG® Spill Kit in High-Visibility Bag

**KIT220**

Absorbs up to 34.1L 45.7cm W x 76.2cm L

4 - 122cm PIG® Blue Absorbent Socks • 28 - PIG® Universal Mat Pads  
5 - Disposal bags & ties

## Respond to small spills then ship the used absorbents in the overpack.

- Packed with PIG Absorbents for controlling spills up to 45.4 litres
- Overpack is X-rated for Packing Groups I, II and III, so it's certified for shipping waste by land, sea or rail after cleanup is finished
- Half-turn, leakproof lid is notched so you can easily remove or tighten it with a pole

### PIG® Spill Kit in a 76L Overpack Drum

**KIT211**

Absorbs up to 45.4L 48cm H

4 - 122cm PIG® Blue Absorbent Socks • 1 - 3m PIG® Blue Absorbent Sock • 15 - PIG® Universal Mat Pads • 2 - PIG® Pillows • 5 - Disposal bags & ties • 6 - Tamperproof labels

**Swing-out front doors make it easy to get to the supplies you need.**

- Packed with PIG Absorbents for controlling spills up to 53 litres
- Ideal for maintenance crews, as well as labs or other areas prone to small spills
- PIG Blue Socks stop spreading spills; PIG Mat and Pillows absorb; wipers clean surfaces and hands; PIG Repair Putty can patch a drum leak or fix a crack in a fluid reservoir
- Wheeled kit is easy to manoeuvre throughout your facility so you can quickly take PIG Absorbents right to the spill

## PIG® Spill Kit in High-Visibility Cart

**KIT244** Absorbs up to 53L 41cm W x 51cm L X 91.5cm H

5 - 122cm PIG® Blue Absorbent Socks • 1 - 38cm x 18.3m PIG® Universal Rip & Fit Mat Roll in Dispenser Box • 4 - PIG® Pillows • 1 - PIG® Repair Putty • 1 - Pair nitrile gloves • 1 - Pair safety goggles • 5 - Temporary disposal bags & ties • 1 - Instructions

## Mobile PIG Spill Kit rolls right to the spill for fast response.

- Packed with PIG Absorbents for controlling spills up to 53 litres
- Swing-out doors, prepacked shelves and compartments make cart easy to inventory and access
- Can be locked for added security (padlock not included)
- Narrow width fits easily through doors and aisles

## PIG® Spill Kit in Cart

**KIT297** Absorbs up to 53L 45.7cm W x 50.8cm L X 106.7cm H

5 - 122cm PIG® Blue Absorbent Socks • 1 - 38cm x 18.3m PIG® Universal Rip & Fit Mat Roll in Dispenser Box • 4 - PIG® Pillows • 1 - PIG® Repair Putty • 1 - Pair nitrile gloves • 1 - Pair safety goggles • 5 - Temporary disposal bags & ties • 1 - Instructions

***Keeping India's Workplaces Clean and Safe***

**Mobile kit is highly visible for fast response to mid-sized spills.**

- Packed with PIG Absorbents for controlling spills up to 140 litres
- Lightweight, 100% polyethylene container resists chemicals
- Bright yellow container stands out, so you can find it when you need it
- PIG Blue Socks stop spreading spills; PIG Mat absorbs; PIG Dri and Lite-Dri Loose Absorbents clean up residue on rough surfaces

## PIG® Spill Kit in High-Visibility Mobile Container

**KIT273** Absorbs up to 140L 60cm W x 73.7cm L X 93.3cm H

4 - 122cm PIG® Blue Absorbent Socks • 1 - 3m PIG® Blue Absorbent Socks • 70 - PIG® Universal Mat Pads • 2 - PIG® Lite-Dri® Loose Absorbent • 2 - PIG® Dri Loose Absorbent in Spill Pouch • 5 - Disposal bags & ties • 6 - Tamperproof labels • Instructions

**Strong enough to earn a UN rating for shipping spill cleanup waste.**

- Packed with PIG Absorbents for controlling spills up to 227.1 litres
- Comply with Spill Plan regulations, avoid fines and be ready to respond with the #1 kit for everyday liquid spills
- Overpack is X-rated for Packing Groups I, II and III, so it's certified for shipping waste by land, sea or rail after cleanup is finished
- Leakproof, twist-on lid is notched so you can easily remove or tighten it with a pole

## PIG® Spill Kit in a 360L Overpack Drum

**KIT202-999** Absorbs up to 227.1L 105.4cm H

16 - 122cm PIG® Blue Absorbent Socks • 10 - 3m PIG® Blue Absorbent Socks  
60 - PIG® Universal Mat Pads • 8 - PIG® Pillows • 56 - PIG® Wipers • 10 - Disposal bags & ties  
1 - Instruction manual • 6 - Tamperproof labels

**High-capacity kit rolls through standard doorways for fast spill response.**

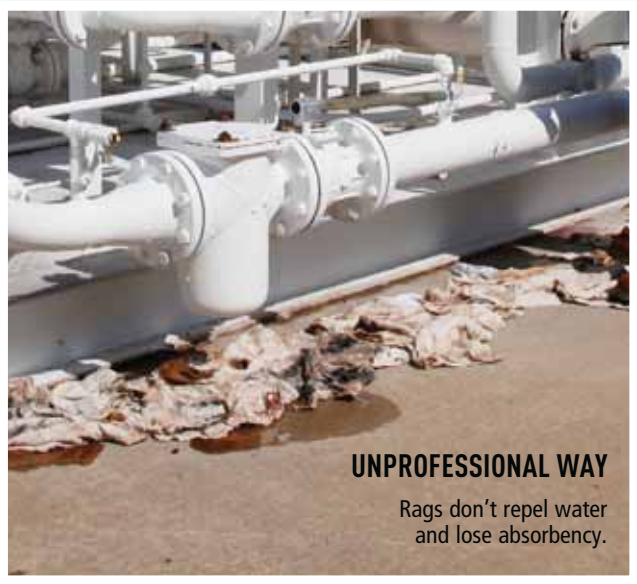

- Packed with PIG Absorbents for controlling spills up to 287.7 litres
- UV-resistant, hi-viz, lockable polyethylene container keeps absorbents secure and dry indoors or out
- Container rolls easily on 13cm rubber wheels that brake to keep kit in place

## PIG® Spill Kit in High-Visibility Storage Chest

**KIT279** Absorbs up to 287.7L 79cm W x 122cm L x 97cm H

31 - 122cm PIG® Blue Absorbent Socks • 10 - 3m PIG® Blue Absorbent Socks • 154 - PIG® Universal Mat Pads • 112 - PIG® All-Purpose Wipers • 15 - Temporary disposal bags & ties  
1 - Instruction manual • 6 - Tamperproof labels

UNPROFESSIONAL WAY

Rags don't repel water and lose absorbency.

PROFESSIONAL WAY

PIG Oil-Only Mat repels water and maintains absorbency even in the rain!

Keeping India's Workplaces Clean and Safe

Professional plants use PIG Oil-Only Mat to control oil-based liquids in outdoor applications.

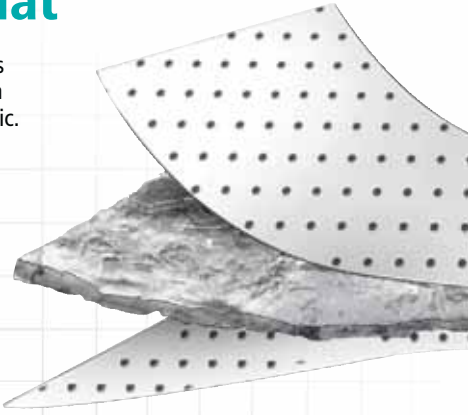

- PIG Oil-Only Mat absorbs oil and repels water for maximum efficiency, even in rainy conditions
- Bright white colour makes absorbed oil easy to see
- PIG Oil-Only Mat helps to maintain a clean, professional appearance around outdoor equipment
- Use Rolls (MAT4501) to absorb drips and leaks in large areas
- Use Pads (MAT4500 and MAT4502) to catch drips and absorb small spills

The Technology Inside  
Oil-Only Mat

Unique construction bonds a high-loft centre between two layers of lint-free fabric.

Primary use:  
Cleanups on water or outdoors

Primary benefit:  
Repels water for maximum efficiency

PIG® Oil-Only Mats

Item#	Weight	Quantity/Unit	Size	Absorbs Up To/Package	
PIG® Oil-Only Mat Pads

PIG® Oil-Only Mat Roll					
MAT4501	Heavyweight	1 roll/bag	76cm W x 45.7m L	Absorbs up to 188.5L/bag	
PIG® Oil-Only Mat in a Dispenser Box					
MAT4500	Heavyweight	100 pads/box	38cm W x 48cm L	Abs. up to 99.5L/dispenser	

## PIG UV-Resistant Oil-Only Mat is made for long-term outdoor use — it resists UV rays for up to 1 year!

- Durable top layer is UV resistant up to one year
- Completely absorbs oily drips and overspray while repelling water
- Floats to clean up oil-based liquids on water
- Bright color makes absorbed oil easier to see
- Heavyweight features eight layers; extremeweight doubles that to boost capacity

Available with a clear poly-back so absorbed liquids stay off your floors!

### PIG® UV-Resistant Oil-Only Mat

<b>MAT4105</b>	Heavyweight	100 pads/bag	41cm W x 51cm L	Absorbs up to 83.3L/bag
<b>MAT4107</b>	Heavyweight	1 roll/bag	81cm W x 45.7m L	Absorbs up to 151.4L/bag

## PIG Stat-Mat Pads are specially treated to help reduce the risk of electrostatic discharge.

- Exceeds American standards for static decay and surface resistivity
- Use in confined areas, fueling areas and wherever flammable vapours may be present
- Absorbs acetone, benzene, petroleum, toluene, xylene, mineral spirits and other flammables; repels water for outdoor cleanup

### PIG® Stat-Mat® Absorbent Pads

<b>MAT414</b>	Heavyweight	50 pads/box	38cm W x 51cm L	Absorbs up to 41.6L/box
---------------	-------------	-------------	-----------------	-------------------------

## 4 in 1 Mat works four different ways to control liquid messes all around your plant.

- Tear off a pad to soak up spills easier than rags, clay or mops
- Roll out a longer length to absorb messy overspray
- Fold it in half to line machine bases to catch oily leaks
- Use it to wipe up drips or for other cleaning tasks
- Completely absorbs oil but not a drop of water to maintain a professional appearance

### PIG® 4 in 1® Oil-Only Absorbent Mat in Dispenser Box

<b>MAT484</b>	1 roll/dispenser box	41cm W x 24.4m L	Absorbs up to 34.8L/box
---------------	----------------------	------------------	-------------------------

Patent 5,888,604 and 5,597,418

## Tear Rip-&-Fit Mat to fit any space to control liquids and create a professional appearance.

- Multiple perforations let you create custom sizes for any application
- Completely absorbs drips and overspray to maintain a professional workplace
- Absorbed liquids won't leak out when you pick up the mat
- Absorbs oil but not a drop of water

### PIG® Rip-&-Fit® White Oil-Only Mat Roll in Dispenser Box

<b>MAT442</b>	Heavyweight	1 roll/dispenser box	38cm W x 18.3m L	Absorbs up to 29.9L/box
---------------	-------------	----------------------	------------------	-------------------------

This hi-viz spill kit bag is water-resistant and easy to close, hang and carry.

- Packed with PIG Absorbents for controlling spills up to 37.9 litres
- PIG Oil-Only Socks stop spreading spills; PIG Stat-Mat Pads absorb quickly
- Absorbents meet NFPA 99 standards for static decay to allow use with fuels and flammables
- Compact and easy to store — makes a great truck spill kit

Strap for easy carrying and hanging

## PIG® Oil-Only Spill Kit in High-Visibility Bag

**KIT420**

Absorbs up to 37.9L 45.7cm W x 76.2cm L

4 - 122cm PIG® Oil-Only Absorbent Socks • 28 - PIG® Stat-Mat Absorbent Pads  
5 - Disposal bags & ties

Be ready to respond and stay compliant with the #1 kit for oil-based liquid spills.

- Packed with PIG Absorbents for controlling spills up to 47.3 litres
- Overpack drum container is UN Rated for shipping waste after oil spill cleanup
- Neatly prepacked container speeds access during a spill emergency
- Overpack is X-rated in Packing Groups I, II and III for shipping spill cleanup waste by land, sea or rail

## PIG® Oil-Only Spill Kit in a 76L Overpack Drum

**KIT411-01**

Absorbs up to 47.3L 48cm H

2 - 46cm PIG® Sump Skimmers • 3 - 3m PIG® Oil-Only Absorbent Boom • 12 - PIG® Stat-Mat Absorbent Pads • 5 - Disposal bags & ties • 6 - Tamperproof labels • 1 - Instructions

# 1

## PIG Universal Mat Pads

Absorbs messy drips and overspray to keep floors clean and dry.

See pages 8–9

# 2

## PIG Universal Mat Roll

Cover large areas to absorb messy overspray and keep floors dry.

See pages 8–9

# 3

## PIG Elephant Mat

Extra-durable mat stands up to heavy foot traffic and keeps walkways dry.

See page 14

# 4

## PIG Original Absorbent Sock

Wrap socks around machine bases to keep leaks off your floor.

See page 17

# 5

## PIG Pan

Catch and contain drips and splashes in drum dispensing areas.

See page 18

# 6

## PIG Spill Kit in High-Visibility Storage Chest

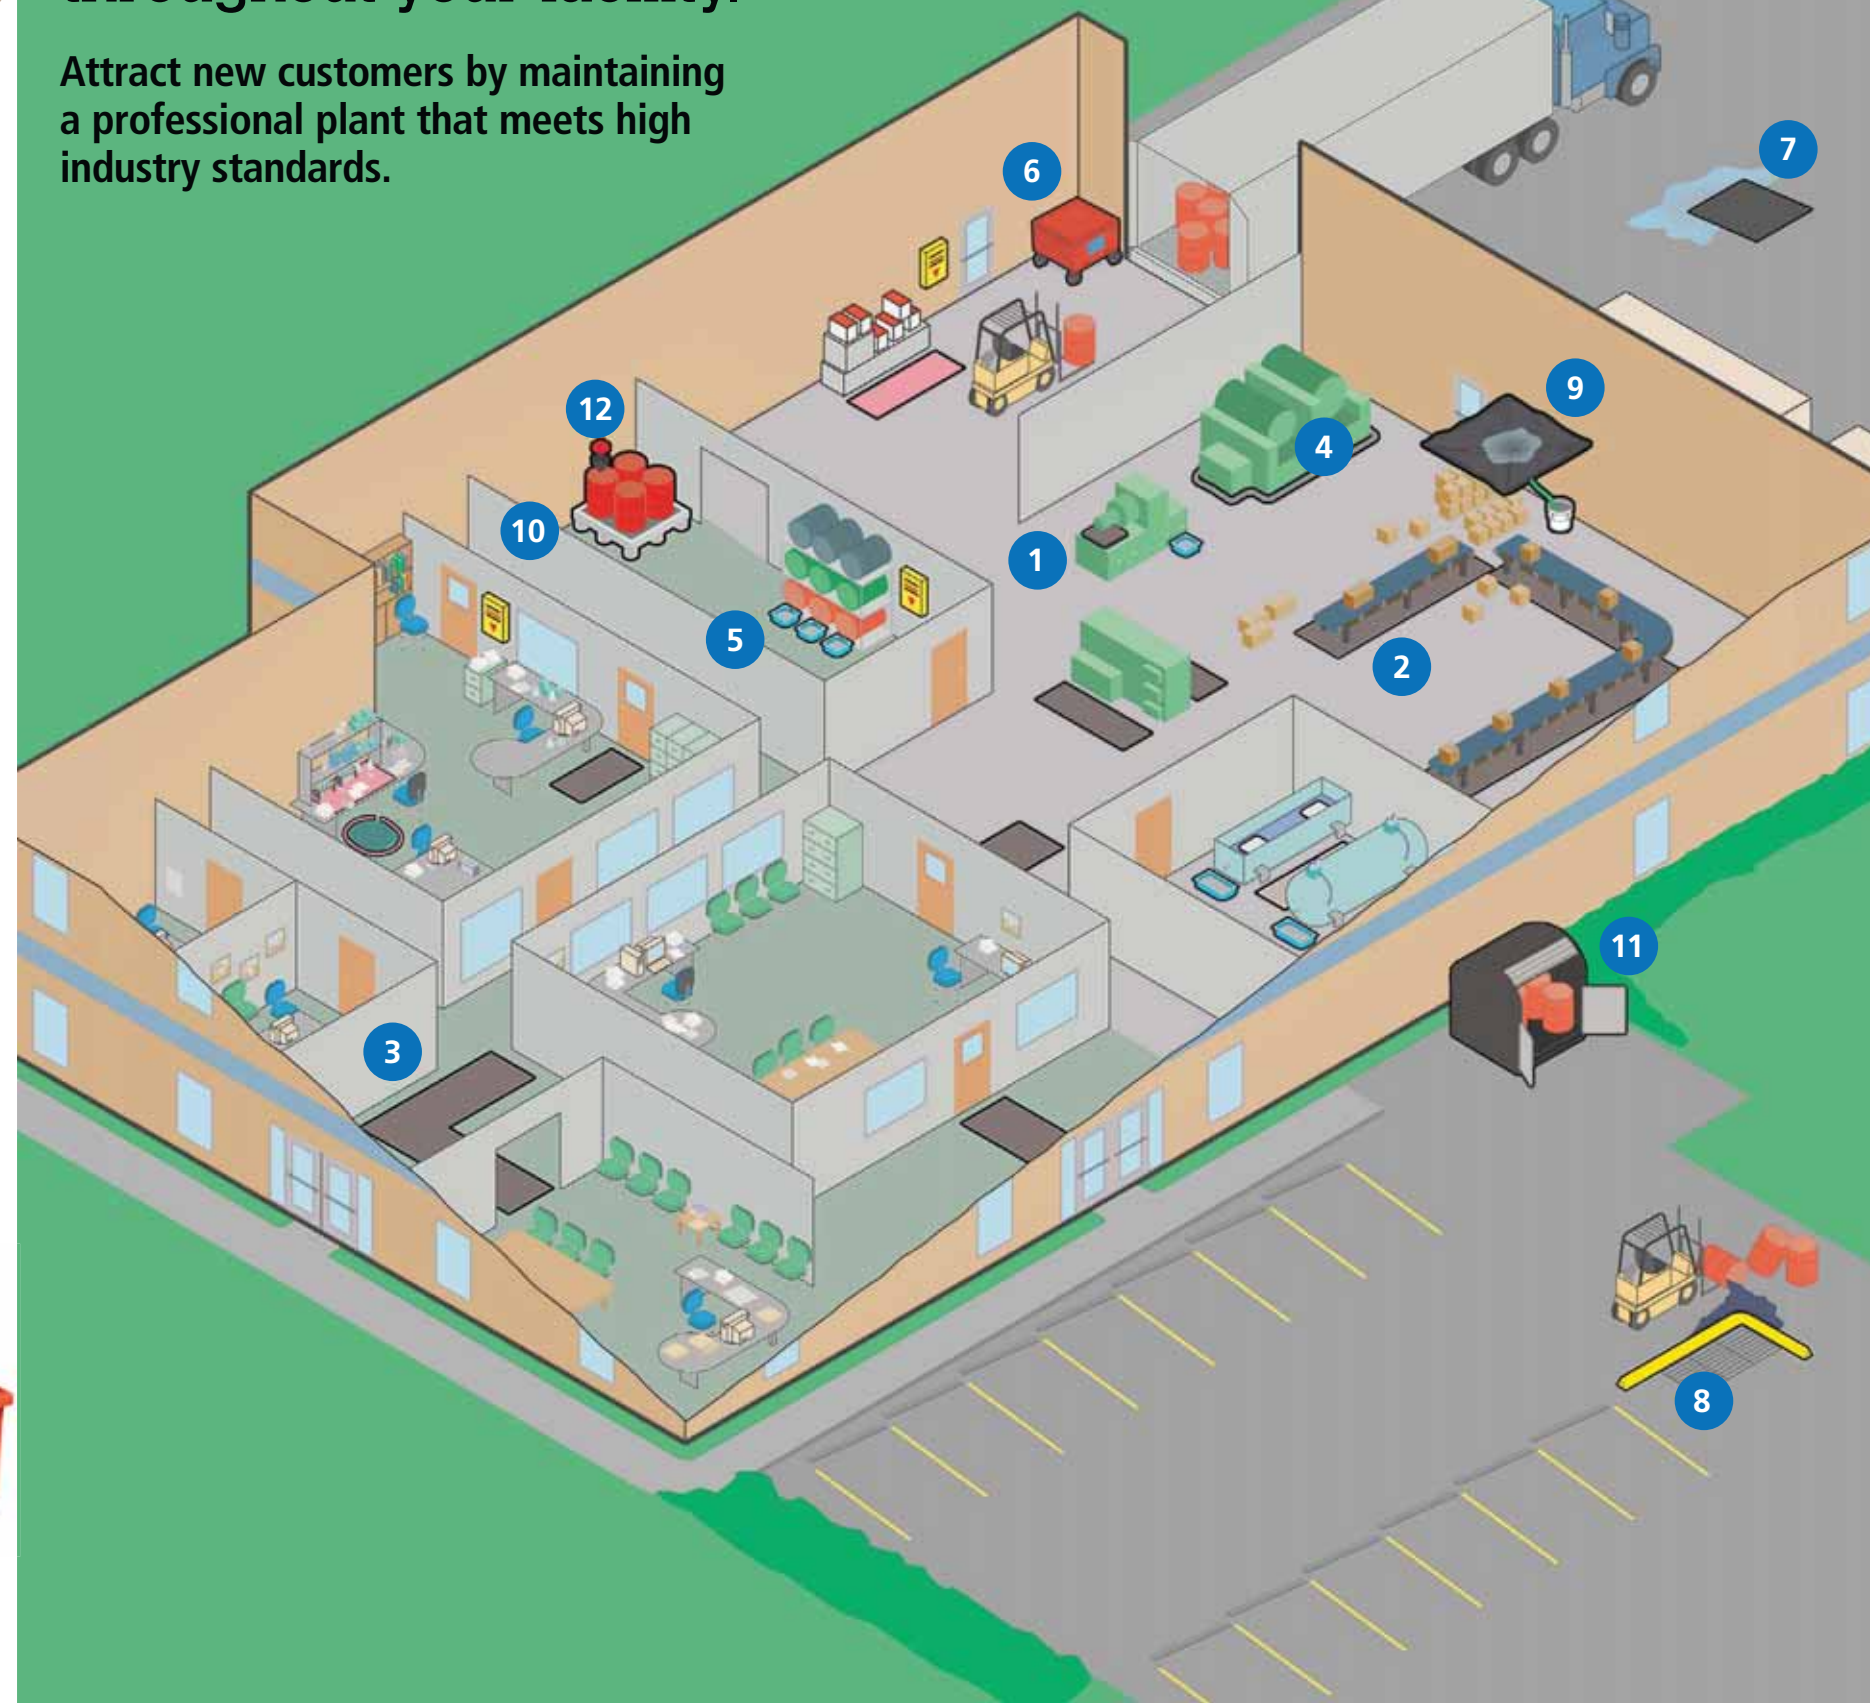

Keep near loading docks and other areas where spills may occur.

See pages 25 and 35

# Use these 12 customer-favorite PIG products throughout your facility.

## Attract new customers by maintaining a professional plant that meets high industry standards.

# 7

## PIG Drive-Over DrainBlocker Drain Cover

Cover your drains to keep out unwanted liquids in high-traffic areas.

See page 47

# 8

## PIG SpillBlocker Dike

Block spills from reaching drains with this non-absorbent barrier.

See page 46

# 9

## PIG Leak Diverter

Catch overhead leaks and channel them away to keep equipment, inventory and floors dry.

See pages 48–49

# 10

## PIG Spill Containment Pallet

Maintain clean, well-organized drum storage areas while containing drips, spills and splashes.

See page 61

# 11

## PIG Roll Top Hardcover

Store drums outdoors with pumps and funnels in place inside this weatherproof unit.

See page 63

# 12

## PIG Funnels

Wherever you pour or store liquids, our funnels can help keep your facility clean.

See page 55

Swing out front doors make it easy to get to the supplies you need.

- Packed with PIG Absorbents for controlling spills up to 56.8 litres
- Oil-Only Mat Roll is perfed across the width and down the length; tear off pads or length of mat to throw on a spill or catch drips and overspray
- 20cm wheels for easy mobility; fits down narrow aisles and through doorways

PIG® Oil-Only Spill Kit in High-Visibility Cart

**KIT444** Absorbs up to 56.8L 46cm W x 58cm L X 99cm H

5 - 122cm PIG® Skimmer Oil-Only Absorbent Sock • 1 - PIG® Rip-&-Fit Oil-Only Mat in Dispenser Box • 4 - PIG® Skimmer Pillows • 5 - Temporary disposal bags & ties • 1 - Instruction Poster • 1 - Goggles • 1 - Pair of Gloves • 1 - Epoxy Putty

Mobile PIG Spill Kit rolls right to the spill for fast response.

- Packed with PIG Absorbents for controlling spills up to 56.8 litres
- Swing-out doors, prepacked shelves and compartments make cart easy to inventory and access
- Can be locked for added security (padlock not included)
- Narrow width fits easily through doors and aisles

PIG® Oil-Only Spill Kit in Cart

**KIT497** Absorbs up to 56.8L 46cm W x 58cm L X 99cm H

5 - 122cm PIG® Skimmer Oil-Only Absorbent Sock • 1 - PIG® Rip-&-Fit Oil-Only in Dispenser Box • 4 - PIG® Skimmer Oil-Only Pillows • 1 - PIG® Multi-Purpose Epoxy Putty • 1 - Pair nitrile gloves • 1 - Pair safety goggles • 5 - Temporary disposal bags & ties • 1 - Instructions

Mobile kit is highly visible for fast response to mid-sized spills.

- Packed with PIG Absorbents for controlling spills up to 151.4 litres
- Prepacked container with hinged lid provides easy access to contents
- Bright yellow container stands out, so you can find it when you need it
- PIG Oil-Only Socks stop spreading spills; PIG Stat-Mat Pads absorb; PIG Lite-Dri Oil-Only Absorbent cleans up residue on rough surfaces

PIG® Oil-Only High-Visibility Mobile Container Kit

**KIT469** Absorbs up to 151.4L 60cm W x 73.7cm L X 93.3cm H

4 - 122cm PIG® Skimmer Oil-Only Absorbent Socks • 2 - 3m PIG® Skimmer Oil-Only Absorbent Socks • 70 - PIG® Stat-Mat Absorbent Pads • 2 - PIG® Oil-Only Lite-Dri Loose Absorbent • 5 - Disposal bags & ties • 6 - Tamperproof labels • 1 - Instructions

Strong enough to earn a UN rating for shipping spill cleanup waste.

- Packed with PIG Absorbents for controlling spills up to 196.8 litres
- Overpack is X-rated for Packing Groups I, II and III, so it's certified for shipping waste by land, sea or rail after cleanup is finished
- Lightweight, 100% polyethylene container resists chemicals and keeps contents clean and dry

PIG® Oil-Only Spill Kit in a 360L Overpack Drum

**KIT402-999** Absorbs up to 196.8L 105.4cm H

3 - 13cm x 3m PIG® Oil-Only Absorbent Booms • 10 - 8cm x 3m PIG® Oil-Only Absorbent Socks • 60 - PIG® Stat-Mat Absorbent Pad • 10 - Disposal bags & ties • 6 - Tamperproof labels • 1 - Instructions

High-capacity kit rolls through standard doorways for fast spill response.

- Packed with PIG Absorbents for controlling spills up to 280 litres
- UV-resistant, hi-viz, lockable polyethylene container keeps absorbents secure and dry indoors or out
- Container rolls easily on 13cm rubber wheels that brake to keep kit in place

PIG® Oil-Only Spill Kit in High-Visibility Storage Chest

**KIT479** Absorbs up to 280L 122cm W x 79cm L x 97cm H

1 - 20cm x 3m PIG® Oil-Only Absorbent Booms • 2 - 13cm x 3m PIG® Oil-Only Absorbent Booms • 8 - 8cm x 3m PIG® Oil-Only Absorbent Booms • 100 - PIG® Stat-Mat Absorbent Pad • 4 - PIG® Sump Skimmers • 1 - PIG® Spaghetti Strips • 15 - Temporary disposal bags & ties • 6 - Tamperproof labels • 1 - Instructions labels

# Clean up oil spills on land or water the professional way with PIG Oil-Only Absorbents.

- UV-resistant PIG Oil-Only Absorbents completely absorb oil and repel water
- Floats to clean up oil spills on water and repels rainwater to clean up oil spills on land
- Traps absorbed liquid so it won't leak out when you pick it up
- Bright white colour makes absorbed oil easy to see
- Use PIG Socks and Booms to surround the spill and confine the oil
- Use PIG Spaghetti Booms to surround and absorb thick oil spills on water
- Use PIG Sump Skimmers in your sumps and oil tanks to absorb surface oil

## Oil-Only Booms at work ...

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

PIG® Oil-Only Absorbent Socks				
<b>SKM210</b>	12 socks/box	8cm Dia. x 122cm L	Absorbs up to 45.4L/box	
PIG® Oil-Only Booms				
<b>BOM405</b>	4 Booms/bag	13cm Dia. x 3m L	Absorbs up to 90.8L/bag	
<b>BOM408</b>	2 Booms/bag	13cm Dia. x 6.1m L	Absorbs up to 90.8L/bag	
PIG® Spaghetti Booms				
<b>BOM403</b>	2 Booms/bag	13cm Dia. x 6.1m L	Absorbs up to 90.8L/bag	
PIG® Sump Skimmers				
<b>SKM403</b>	12 Skimmers/box	20cm Dia. x 46cm L	Absorbs up to 81.7L/box	

## ON LAND

PIG Oil-Only Booms repel rainwater for easy cleanups of oil spills on land.

## ON WATER

Surround oil spills on water to prevent spreading. For faster cleanup add PIG Oil-Only Mat Pads (see page 27).

UNPROFESSIONAL WAY  
Inferior absorbent methods just make the mess bigger.

PROFESSIONAL WAY

PIG HazMat Absorbents are built for the tough job of absorbing acids, caustics and other dangerous liquids.

Keeping India's Workplaces Clean and Safe

Take charge of dangerous liquids and maintain a safer plant with PIG HazMat Pads and Rolls.

- PIG HazMat Pads and Rolls absorb acids, caustics and other dangerous liquids
- Specially treated to handle highly concentrated corrosives like 98% sulfuric acid and 30% sodium hydroxide
- Traps liquid so it won't leak out when you pick them up
- Use Pads (MAT302, MAT351, MAT354) for soaking up spills, catching drips or lining work surfaces
- Rolls (MAT309) are ideal for covering floors and other large areas where dangerous liquids are used
- Rip-&-Fit HazMat Rolls (MAT342) have extra perforations for a custom fit

The Technology Inside  
HazMat Pads & Rolls

Fine-fibre polypropylene is specially treated to absorb corrosives with high concentrations.

Primary use:  
Cleaning up acids, caustics or unknown liquids

Primary benefit:  
Won't degrade on contact with highly concentrated corrosives

ATTENTION: Independent testing indicates that PIG® HazMat products are compatible with and absorb most acids and bases. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To insure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG® HazMat products prior to purchase. If you have any questions or need samples to test, please call your local distributor.

## Control spills of acids, caustics and unknown liquids with PIG HazMat Socks and Pillows.

- PIG HazMat Socks and Pillows absorb acids, caustics and other dangerous liquids
- Specially treated to handle highly concentrated corrosives like 98% sulfuric acid and 30% sodium hydroxide
- Traps liquid so it won't leak out when you pick them up
- Use PIG HazMat Socks to surround the spill and confine the liquid
- Use PIG HazMat Pillows to absorb large amounts of liquid

### Use PIG HazMat Absorbents for liquids like:

- 98% Sulfuric acid
- 30% Sodium hydroxide
- Hydrochloric acid
- Potassium hydroxide
- Hydrogen peroxide
- Phosphoric acid
- Hydrofluoric acid
- Ammonium hydroxide

#### PIG® HazMat Absorbent Socks

We recommend that you conduct compatibility and absorption testing of your chemicals with PIG® HazMat products prior to purchase. See note on page 39.

Place a SpillBlocker Dike in front of drains to stay in control of spills.

- Helps you meet international environmental standards by confining spills to protect drains
- SpillBlocker Dike sticks to floors to keep spills from spreading
- Durable top layer protects a tacky bottom layer
- Join dikes with connectors and corners

PIG® SpillBlocker® Dike		
PLR204	Dike 10 cm W at base	3m L x 5.7cm H x 10cm W
PLR205	Connector; black only	10cm L x 5.7cm H x 14cm W
PLR206	Corner; yellow only	10cm L x 10cm W x 5.7cm H

Patent 5,236,281  
NOTE: The physical properties of these products may change under certain conditions. For more details and for chemical compatibility, please contact your local distributor.

Confine machine leaks with a PIG LeakBlocker Dike to keep your plant running smoothly.

- Flexible dike moulds to fit any curve and contains leaks without absorbing them
- Allows you to vacuum liquids to reclaim, reuse or recycle
- Tacky bottom creates a liquidproof seal
- High-visibility yellow colour minimises tripping hazards
- Polyurethane is non-absorbent, chemical resistant and reusable; cleans easily with soap and water

PIG® LeakBlocker® Dike	
PLR212	5.7cm W x 3m L x 3.5cm H

NOTE: The physical properties of these products may change under certain conditions. For more details and for chemical compatibility, please contact your local distributor.

Top-quality products for a professional workplace

**PIG Drive-Over DrainBlocker Drain Covers are:**

**ABRASION RESISTANT**  
Driveovers won't damage this drain cover, even when tires track on dust, dirt and gravel.

**TEAR RESISTANT**  
Drain cover won't rip when you put it down or pick it up.

**UV & IR LIGHT RESISTANT**  
Use outdoors as long as you need and it won't degrade in the sun.

**CHEMICAL RESISTANT**  
Polyurethane and rubber construction is resistant to many commonly used chemicals.

The PIG Drive-Over DrainBlocker Drain Cover seals tightly, and you can drive right over it.

- Helps you meet international environmental standards by keeping harmful liquids out of drains
- Withstands traffic from forklifts and heavy trucks
- Durable top layer resists tearing, punctures and abrasion; bottom layer seals tightly and resists chemicals
- Leave down for long-term protection or store for emergency spill response
- Cover must overlap drain opening at least 8 cm on all sides

Our toughest drain cover is easy to pick up and relocate.

ADDITIONAL SIZES AVAILABLE!

Patent pending  
NOTE: The physical properties of the softer urethane bottom may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Inspect product regularly to ensure usability. For more details and chemical compatibility, call your local distributor. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

Diverters feature corner grommets for easy hanging. (Straps sold separately.)

TLS462  
Translucent

UNPROFESSIONAL WAY

Roof leaks can be costly if your valuable inventory is ruined!

PROFESSIONAL WAY

Don't waste time moving your inventory out of the way. Hang a PIG Leak Diverter and redirect the liquid instead!

1.9 cm hose fitting allows you to attach a clear drainage hose to drain water into a holding tank (not included) or floor drain.

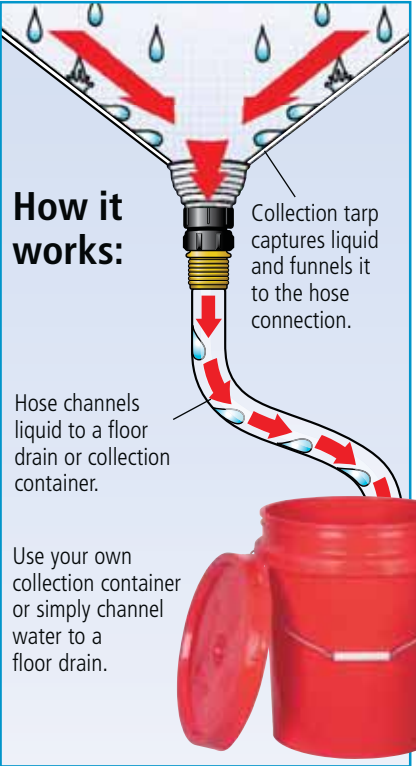

PIG Leak Diverters protect your equipment and inventory from dangerous, damaging roof leaks.

- Use as a temporary fix or for long-term leak prevention
- Durable collection tarp resists UV, mildew and punctures
- Accepts any standard 1.9cm hose (hose sold separately) to channel liquid to floor drain or collection container; flow rate is 12.5 litres per minute when used with 1.27cm ID hose
- Leak Diverter for Pipes (TLS248) has a compact design to hang underneath piping
- Leak Diverter for Roofs (TLS462) covers more area for a variety of overhead leaks
- Combination Kit (TLS671) prepares you for both roof and pipe leaks

TLS248  
Hang diverter from an overhead pipe with rubber straps (included).

How it works:

Collection tarp captures liquid and funnels it to the hose connection.

Hose channels liquid to a floor drain or collection container.

Use your own collection container or simply channel water to a floor drain.

NOTE: Overpacks are not approved for air transport.

**Patch broken pipes with our Deluxe Pipe Patch Kit to avoid downtime.**

- Quickly patch ruptured pipes using chemical-resistant, stainless steel pipe clamps and neoprene liners
- Easy to use; just slide into place and tighten
- Includes a ratchet wrench for fast tightening
- Clamps work on any pipe from 1.27cm to 12.7cm in diameter

PIG® Deluxe Pipe Patch Kit		
GEN313	Kit	21 Pieces

**PIG Drum Patch Kit stops drum leaks.**

- Economical kit includes 30 different plugs, patches, PIG Repair Putty, tape and wedges
- Quickly stops a leak until permanent repairs can be made; patches holes up to 12.7cm x 22cm

PIG® Drum Patch Kit		
GEN312-1	Kit	
Contents • 1 - 2.5cm Ball plug • 1 - Duct tape • 4 - PIG® Repair Putty • 1 - 5.7cm - 6.5cm Taper surface plug • 2 - 6m L Nylon straps • 1 - 4.1cm - 5cm Taper surface plug • 1 - 23cm x 23cm Neoprene patch • 1 - 4.9cm - 6.5cm Taper surface plug • 1 - Puncture repair kit • 1 - 2.5cm - 3.2cm Taper surface plug • 1 - Regular screwdriver • 1 - #6 Screw patch • 1 - Phillips screwdriver • 1 - #8 Screw patch • 1 - Adjustable pliers • 1 - #10 Screw patch • 2 - 20cm x 20cm Plug 'n' Seal DrainStopper • 1 - 5cm Ball plug • 1 - #12 Screw patch • 1 - #14 Screw patch • 6 - 38cm x 51cm PIG® Universal Mat Pads • 1 - 1.5cm - 4cm Taper surface plug • 1 - 8.3cm x 9cm T-Patch • 1 - 8.3cm x 4.5cm T-Patch • 1 - 7.6cm x 305m Barrier tape roll • 1 - 2.9cm - 2.14 Taper surface plug • 1 - Rubber mallet		

Patch and repair almost anything with PIG Repair Putty to keep your plant running smoothly.

- Premeasured epoxy has Part A and Part B in the same tube
- Applies quickly with no mess; knead it into a uniform color and it's ready
- Cures harder than cement so you can drill, sand, saw, machine or paint it
- Non-toxic putties are free of solvents and VOCs; safe for use on potable water lines
- Available in three formulas to match your application

Helpful hint: For drum leak repairs, knead some putty to plug the hole, then patch over the hole with what's left.

Multi-Purpose

- Sticks to steel, glass, masonry and most plastics

PIG® Multi-Purpose Repair Putty		
PTY201	12 sticks/box	18cm L each

Wet Surface

- Repairs electrical connections and pipes in wet areas, even under water

PIG® Wet Surface Repair Putty		
PTY259	6 sticks/box	18cm L each

Steel

- Repairs any ferrous or aluminium metals

PIG® Steel Repair Putty		
PTY264	6 sticks/box	18cm L each

**PIG Containment Trays contain leaks and spills on your countertops.**

- Good housekeeping practice helps you control leaks and drips
- Chemical-resistant tray has built-in containment
- Compact size fits on a tabletop or counter

PIG® Countertop Spill Containment Trays			
PAK371	5.6L sump capacity	30.5cm W x 42cm L x 10cm H	

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call your local distributor.

Pour hole lets you drain liquid.

**PIG Drum Spill Trays contain drips to keep floors dry.**

- PIG Drum Spill Trays are the professional way to catch small drips before they can make a big mess
- Holds up to 23 litres with a 210-litre drum in place
- Removable grate holds smaller containers

PIG® Drum Spill Trays			
DRM371	Tray with grate	79.5L sump capacity	
		82cm W x 82cm L x 21cm H	

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call your local distributor.

**Temporarily bag your hazardous waste until proper disposal is arranged.**

- Highly visible bags are labeled with printed message to help identify contents
- Durable 3-mil thickness
- Large size bags fit 210-litre drums; small size bags fit 113-litre drums

Poly Disposal Bags			
BAG202	"Hazardous Material-Handle with Care"		
	Small	50/pack	46cm W x 76cm L
	Large	25/pack	91cm W x 152cm L

**Work more comfortably on this soft, chemical-resistant mat.**

- Designed to reduce leg and back strain for standing workers
- Dyna-Shield coating adds chemical resistance; sealed to prevent moisture penetration
- Bevelled edges and a textured surface prevent slips or trips

Pebble Step Sof-Tred™ Anti-Fatigue Mat		
FLM126	91.4cm L x 61cm W x 9.5mm H	
FLM127	152.4cm L x 91.4cm W x 9.5mm H	

**PIG Sticky Steps Mat grabs dirt to keep footprints out of offices.**

- Lifts dirt and debris off of shoe bottoms and cart wheels; leaves no sticky residue
- Low-profile pack has adhesive backing that sticks to floor
- When top sheet is dirty, peel it off to reveal a clean one

PIG® Sticky Steps® Mat			
MAT566-BL	30 sheets/pad	4 pads/box	61cm W x 114cm L

**Clean up oil and solvents on rough surfaces with these durable wipers.**

- Excellent for wiping parts and machines with jagged edges, metal chips or rust
- Constructed of cellulose and synthetic fibers; no chemical binders or adhesives
- Superior abrasion resistance and wet strength for scrubbing rough surfaces

PIG® Heavy-Duty Maintenance Wipes				
WIP304	1/4-fold	Blue	30cm W x 33cm L	
	50 wipers/pack, 20 packs/case, 1,000/case			

**Quickly mop up oily spills without bending or stooping.**

- Aluminium mop head swivels 360° for easy cleaning of hard-to-reach places
- Handle telescopes up to 1.75m long
- Simply wring out pad to reclaim or dispose of oil; no laundering required

Textured pads attach to fabric on mop head.

Oil-Only Mop System				
TLS631	Absorbs up to 6.6L/box	12 - 22cm W x 48cm L Oil-Only Mop Pad Refills • 1 - Aluminium Handle with Head containing Hook-Fabric Tape		
RFL631	12 pads/bag	22cm W x 48cm L	Absorbs up to 6.6L/box	

## PIG Drum Funnel covers drum tops for neat pouring and a professional look.

- Covers entire drum top to minimise spills and splashes
- Double-wall funnel resists rust, corrosion and most chemicals
- High sidewalls let you pour in up to 22.7 litres at a time
- Level inside surface keeps containers from tipping over

Covers available in:  
**Black** **Red**

**PIG® Poly Drum Funnel**  
Specify cover colour: Black or Red  
**DRM454** Funnel with cover  
60.3cm Dia. x 15.2cm H

**Pop-Up Drum Fill Gauge**  
**DRM245** 208L Vertical Drums w/.75" NPT

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call your local distributor.

## Burpless Funnel with one-handed latching lid is easy to open and close.

- One-piece spun-steel funnel design is strong and durable
- Powder-coated finish resists chipping
- Latching handle lets you open and close lid with one hand
- ◆ Helps you comply with American regulations requiring haz waste containers to be closed

Lids available in:  
**Black** **Red**

**PIG® Burpless® Poly Coated One-Hand Sealable Drum Funnel**  
Specify colour: Black, Red or Yellow  
**DRM1126** 38cm L x 28.6cm W x 33cm H

Patent 5,676,185; 5,402,835

## Ball Valve provides easy, one-hand funnel operation.

- Poly ball valve allows you to open or close funnel using only one hand
- Screws into 2" NPT opening on drum — prevents spills if drum is knocked over
- Made of polyethylene with Teflon® seals
- ◆ Helps you comply with American regulations when ball valve is properly closed

**Poly Funnel Ball Valve**  
**DRM946** Use with Poly Burpless® Funnel

Patent 5,120,454

Lids available in:  
**Black** **Red** **Yellow**

## PIG Poly Funnel lets you pour fast and splash-free into any steel or poly drum!

- Wide 34cm external diameter provides continuous, splash-free pouring
- Internal vent tubes prevent pressure buildup and "burping" back
- Tough and economical polyethylene resists chemicals, rust and corrosion
- Fits any steel or plastic drum with a 2" NPT bung opening
- Hinged lid is available in red, black or yellow to help you segregate waste
- Lid is lockable to help prevent unauthorised access

Funnel's threaded brass insert screws right into bung. Vent tube prevents liquid from burping back.

**PIG® Burpless® Poly Funnel**  
Specify colour: Black, Red or Yellow  
**DRM680** 34cm Dia. x 28cm H

Patent 5,120,454

NOTE: Not for use with flammables (f.p.<141°F/60.5°C). For chemical compatibility please contact your local distributor.

# Our Flammable Safety Cabinets deliver the class-leading quality and features you expect from New Pig.

- Fully MIG-welded 14- and 18-gauge steel body is built for a lifetime of continuous use
  - Impact-resistant, 14-gauge steel door faces are 56% thicker than competing cabinets
  - FM Approved for the storage of flammables
  - Three-point zinc latch ensures fail-safe, nonsparking door closure
  - Recessed handle won't catch on passing traffic
  - 10.16cm bullet hinges feature self-lubricating, fully enclosed brass pins
  - Double-wall construction with 3.81cm of insulating air space adds fire protection
- 5.08cm leakproof sump contains leaks, drips and spills
  - Flame arrestor vents on right and left sides of cabinet help prevent flashback ignition
  - Full-width, welded shelf hangers offer maximum support and increase sidewall thickness
  - Grounding connection inhibits static buildup
  - Hybrid powdercoat finish resists chemicals and corrosion
  - Leveling feet can be adjusted for stability

CAB720

PIG SAFETY CABINETS — THE BEST WAY TO PROTECT WORKERS FROM THE HAZARDS OF FLAMMABLE LIQUIDS.

CAB712

CAB736

**PIG Undercounter Cabinets** are also available to utilize storage space underneath countertops and benches.

**Self-Closing Doors**  
Models with self-closing doors feature gas springs and a fusible link that melts in a fire; doors can also be propped open.

**Bullet Hinges**  
Fully enclosed bullet hinges won't trap grime. More durable than piano hinges.

**Full-Width Shelf Hangers**  
More material makes our hangers stronger than individual, spot-welded column hangers.

**Recessed Handles**  
Door handle with keyed lock stays out of the way so it won't snag on passing traffic.

**5.08 cm Leakproof Sump**  
Built-in sump contains leaks, drips, and spills to keep liquids off your floor.

**Zinc Latch**  
Sturdy, reliable latch ensures spark-free closing every time.

# Store drums the professional way with

INFERIOR WAY

## Drums stored on your floor can make a slippery mess.

- When drums sit on your floor, leaks, drips and spills create a big mess
- Without proper containment, liquids from leaking drums reach the floor and become a slip hazard

INFERIOR WAY

## Outdoor storage can lead to rusty drums and vandalism.

- Storing steel drums outdoors exposes them to the elements, causing them to rust
- Rusty drums can contaminate stored liquids
- Drums stored outdoors are vulnerable to theft and vandalism
- Leaks and drips that are not contained create a big mess

INFERIOR WAY

## Wooden pallets rot and break, leaving drums unstable.

- Wooden pallets are not made to store drums
- Too much weight on a wooden pallet can cause it to break
- Wooden pallets provide no containment for leaks, drips and spills
- Leaks and drips that are not contained create a big mess

# PIG Containment Products!

## PIG Spill Containment Pallets control leaks to keep floors dry.

- Large sump provides containment capacity to help control leaks, drips and spills
- Keeps floors dry to help eliminate slip and fall accidents
- Strong, durable pallets hold fully loaded drums without cracking or breaking
- Keeps drum storage areas neat and organised

See PIG Spill Containment Pallets on pages 60–61.

## Padlockable PIG Roll Top Hardcovers are durable and weatherproof.

- Drums are shielded from rain and snow to prevent rust and contamination
- Doors can be locked shut (padlock not included) to help prevent theft and vandalism
- Large sump contains leaks, drips and spills
- Keeps drum storage areas neat and organised

See PIG Roll Rop Hardcovers on page 63.

## Sturdy PIG Spill Decks provide strong, stable drum storage.

- Strong, durable decks hold fully loaded drums without cracking or breaking
- Contain small leaks and drips to keep floors dry
- Low profile keeps drums close to the floor for easy access
- Keeps drum storage areas neat and organised

See PIG Spill Decks on pages 64–65.

## PIG Bladder Decks save space and help you meet regulations!

- Low profile makes loading and unloading easy
- Nonslip grate provides traction
- Lightweight, chemical-resistant polyethylene won't rust or corrode
- Pre-drilled, plugged ports let connect bladder decks to other 14.6cm H modular decks
- Rugged polyethylene bladder allows deck to contain up to 250 litres of liquid
- Replacement bladders (PAK525) also available

Full deployment requires floor space clearance of 168cm W x 147cm D in front of deck.

PIG® Bladder Containment Deck				
PAK523	1 drum	Load capacity UDL 680kg	Sump capacity 250L	77.2cm L x 66cm W x 14.6cm H
PAK525	Replacement bladder		Sump capacity 208L	

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please contact your distributor.

## PIG Poly Deck with Pallet Jack Pockets — Transfer drums on this drip-catching deck. No forklift required!

- Fork pockets are spaced to fit most pallet jacks; deck can be moved fully loaded with properly secured drums
- 907kg UDL capacity is strong enough to support two fully loaded steel or poly drums; PIG Decks will never buckle or bow
- Low-profile 16.51cm design is easy to load or unload; pumps and funnels are easy to access
- 83.3L molded-in sump catches leaks, drips and spills during drum transfers
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access

PIG® Poly Deck with Pallet Jack Pockets				
PAK1020	2 drum	Load capacity UDL 907kg	Sump capacity 83.3L	66cm W x 132cm L x 16.5cm H

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please contact your distributor.

PIG Containment Pallets keep dangerous, slippery liquids off your floors!

PAK210  
4-drum  
(steel or poly drums)

PAK605  
2-drum  
(steel drums only)

## Control liquids in drum storage areas and keep floors safe and dry with PIG Poly Spill Pallets.

- 250L sump contains leaks, drips and spills
- Removable, nonslip grating won't break under the load
- Pallets resist UV rays, rust, corrosion and most chemicals
- PAK605 is for use with steel drums only and can be moved by forklift when unloaded
- PAK210 has increased load capacity for storing steel or poly drums
- PIG Poly Loading Ramp (PAK734) works with PAK210

PIG® Poly Spill Containment Pallets				
PAK605	2 drum	Load cap. 680kg	Sump cap. 250L	73cm W x 135cm L x 41cm H
PAK210	4 drum	Load cap. UDL 2,722kg	Sump cap. 250L	130cm W x 130cm L x 25cm H

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please contact your distributor.

NOTE: PAK605 Not recommended for long-term storage of poly drums.

PIG® Poly Loading Ramp			
PAK734	For 22cm and 25cm high pallets	72cm W x 139cm L x 25cm H	Load capacity 317.5kg

Removable grates give you quick access to sump.

PAK734

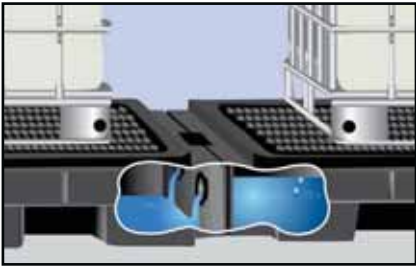

Load drums onto PAK210 using a Poly Loading Ramp (PAK734).

## IBC Modular Spill Pallets let you customise tote storage.

- Modular system provides capacity more economically than individual storage units
- Pallets feature 3.175cm flow-through bulkhead fittings for shared sump capacity
- Pallet sections accommodate almost any size IBC (check total sump capacities)
- 100% polyethylene resists corrosion and most chemicals
- 4-way forklift pockets make moving simple
- Non-slip pallet grates and tank lids lift out for easy sump access
- Included tool kit for easy assembly
- Available in two- or four-IBC pallet systems

Flow-through connections let system components share sump capacity to keep floors dry and help you meet regulations.

### Choosing the right IBC pallet system is easy!

**Two-IBC pallet (PAK119)**  
Includes:  
2 pallets, 2 expansion tanks  
Capacity: 1,060 litres  
Helps meet American regulations for secondary containment of two IBCs.

**Four-IBC pallet (PAK121)**  
Includes:  
4 pallets, 1 expansion tank  
Capacity: 1,382 litres  
Helps meet American regulations for secondary containment of four IBCs. units.

PIG® Modular IBC Spill Pallet					
Item#	Load Capacity	Sump Capacity	Pallet Size	Tank Size	Contents
PAK119	8,164.7kg	1,060L	PIG® Two-IBC Modular Spill Pallet		
			159cm L x 159cm W x 22cm H	155cm L x 79cm W x 32cm H	2 - Expansion tanks • 2 - Pallets 1 - Tool kit • 4 - Bulkhead fittings (2/pack)

			159cm L x 159cm W x 22cm H	155cm L x 79cm W x 32cm H	1 - Expansion tanks • 4 - Pallets 1 - Tool kit • 4 - Bulkhead fittings (2/pack)

Patent 5,562,047 and other foreign patents

## PIG Poly Containment Units help keep IBCs safe and compliant.

- 66cm H deck allows easier access and dispensing
- All-poly construction resists chemicals, rust and corrosion
- Full, flat grate deck surface makes positioning IBCs easy
- Solid anti-slip deck holds a variety of IBC sizes
- Compact 160cm x 160cm footprint saves space
- 3,628.8kg UDL weight capacity
- Two-way forklift entry for easy movement when not loaded
- Sump capacity: 1,363L
- Available with optional drain

### PIG® Poly IBC Containment Unit

Specify: With or without drain • Add \$15 to price shown for drain

<b>PAK735</b>	UDL capacity 3,628.8kg	Sump capacity 1,363L	160cm L x 160cm W x 68.6cm H
---------------	------------------------	----------------------	------------------------------

NOTE: For a chemical compatibility guide or the Technical Article "Storing Flammable Liquids" please call your local distributor.

## Store drums outdoors in a secure PIG Roll Top Hardcover to prevent rust and vandalism.

- Weatherproof storage unit protects drums from rain and snow
- Hardcover locks shut (padlock not included) to help prevent theft and vandalism
- Keep your outdoor drum storage areas neat and organised
- Store drums without having to remove pumps or funnels
- Roll top slides up for easy drum access while you're working
- 284-litre sump contains leaks, drips and spills
- Entire unit can be lifted by a forklift with drums in place

Doors on both sides make it quick and easy to access drums.

Add a PIG Loading Ramp (PAK734) for easy loading and unloading of drums. See page 61.

PIG® 4-Drum Roll Top Hardcover			
Specify: With or without drain			
<b>PAK901</b>	Load capacity 4,082kg	Sump capacity 283.9L	165cm W x 157cm D x 201cm L

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call your local distributor.

Create a dispensing station with a PIG Poly Drum Rack.

- Holds a drum in horizontal position for easy dispensing
- Front of rack fits a 19-litre pail right under the faucet
- Sloped design helps drum contents drain completely
- 340kg weight capacity holds a fully loaded drum

PIG® Poly Drum Rack	
DRM463	Poly Horizontal Dispensing Drum Rack 60cm W x 82cm L x 56cm H

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call your local distributor.

Removing the predrilled ports lets you connect deck sections, creating a larger storage or work area and increasing sump capacity.

Our patented bulkhead fittings let liquids from leaking drums flow from one connected deck to another.

Create a customised, professional drum storage area with PIG Modular Spill Decks.

- Connect PIG Modular Spill Decks together to fit your storage area
- Keeps floors cleaner and safer than drums on wooden pallets
- Pallets feature flow-through bulkhead fittings for shared sump capacity
- Decks resist UV rays, rust, corrosion and most chemicals
- Removable, nonslip grates won't break under the load
- Lightweight, low-profile Poly Ramp (PAK726) holds loads up to 272kg
- Adjustable Steel Loading Ramp (PAK538) holds loads up to 454kg

Mix and match decks for the sump capacity you need:  
1-drum Deck: 42-litre capacity  
2-drum Deck: 83-litre capacity  
4-drum Deck: 167-litre capacity

PIG® Modular Spill Decks - Poly		
PAK524	1 drum Sump capacity 41.6L	Load capacity 680kg 66cm W x 66cm L x 15cm H

PAK531	4 drum Sump capacity 166.6L	Load capacity 2,722kg 132cm W x 132cm L x 15cm H

US Patent 5,562,047

PIG® Adjustable Steel Loading Ramp		
PAK538	For 10-15cm high Decks 67cm W x 97cm L	Load capacity 454kg

PIG® Poly Loading Ramp		
PAK726	Load capacity 272kg	85cm W x 61cm L x 15cm H

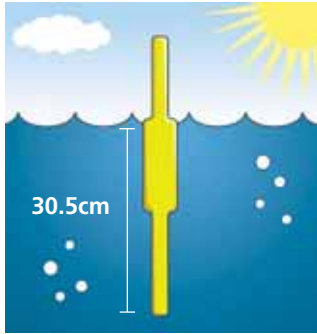

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call your local distributor.

## Durable PIG Oil & Debris Containment Booms stop waterborne oil spills from spreading.

- Floats to surround and stop oil spills or debris from spreading
- UV-resistant, PVC-coated shell is packed with lightweight foam
- Above-water height of 15cm; submerged depth of 30.5cm
- Quality construction provides 3,402kg actual breaking strength
- Highly visible yellow colour for instant recognition in emergency situations
- Snap hooks secure and overlap booms

Non-absorbent containment boom has a 30.5cm draft to help prevent oil and debris from passing underneath.

PIG® Oil & Debris Containment Boom	
<b>BOM301</b>	46cm W x 30.5m L

# GRIPPY RESTROOM MATS

### PIG Urinal Mat with Grippy® Backing

Keep floors cleaner and safer.

Two sizes to catch drips and splashes around urinals. Larger mat (GRP7002) offers extended coverage and easy alignment.

PIG® Urinal Mat with Grippy® Backing		
<b>GRP7001</b>	45.7cm W x 43.2cm L	6 mats/box
<b>GRP7002</b>	48.3cm W x 59.7cm L	6 mats/box

Patent Pending

### PIG Sink & Dryer Mat with Grippy® Backing

Effective drip/splash coverage.

Keep floors dry and safe between and underneath sinks, hand dryers and towel dispensers. Two sizes to fit your restroom layout.

PIG® Sink & Dryer Mat with Grippy® Backing		
<b>GRP7006</b>	61cm W x 43.2cm L	4 mats/box
<b>GRP7007</b>	88.9cm W x 61cm L	4 mats/box

Patent Pending

### PIG Toilet Mat and Drip Pad with Grippy® Backing

Absorb drips and messes.

GRP7003 fits around the base of your toilet for maximum drip/splash coverage. GRP7005 keeps messy plunger water off your floors.

PIG® Toilet Mat with Grippy® Backing		
<b>GRP7003</b>	45.7cm W x 39.4cm L	6 mats/box
<b>GRP7005</b>	22.9cm W x 22.9cm L	6 pads/bag

Patent Pending

### PIG Urinal Mat Runner with Grippy® Backing

Professional restroom environment.

Quickly roll out and cut to length the perfect size runner for continuous coverage under a row of urinals (each roll covers up to 10 urinals).

PIG® Urinal Mat with Grippy® Backing		
<b>GRP7004</b>	61cm W x 8m L	1 roll

Patent Pending
